

FABRICS EXPLAINED

BLACKOUT

Ideal for computer rooms and south facing classrooms where strong sunlight is a problem. *Please note: Light may still enter the room through gaps between the blind and the wall.*

ECOSUNFILTER

Energy saving solution. Screen fabric lets natural light in whilst reducing the glare on whiteboards and screens. Flame retardant and robust material perfect for a classroom environment.

ECOSUNFILTER EARTH

With all the benefits of screen but made of fibres containing up to 80% post consumer recycled materials. Effective way of promoting green approach in schools and conveying your concerns for the environment.
